- Summary and close with Questions and Answers

Introduction

Welcome to the You're Not Just A Number Webinar. My name is Connie

Montgomery and I am a Global Patient Advocate with complex care needs and a retired occupational therapist. Today, my friend and co-presenter, Risa Tolbert and I will be sharing some practical tips you can implement immediately in your service delivery skill sets to improve and maximize health and health related experiences and outcomes. We both have lived experiences as patients, caregivers of our LOVED ONES and healthcare practitioners.

Primary goals and Objectives

- Participants will identify a clear understanding of the 3 types of care: Sympathetic, Empathetic and Compassionate
- 2. Participants will demonstrate the importance of respectful, helpful and relevant healthcare communication

Pre-Test for Webinar {Self Check}

- 1. Define the Sympathetic model of care with service delivery.
- 2. Define the Empathetic model of care.
- 3. Define the Compassionate care and please explain what makes it different and potentially a more effective model of care.
- 4. LIST ONE way to immediately enhance communication and interactions nonverbally with most individuals.
- 5. Please share ONE strategy to improve authentic and respectful communication with all individuals.

- 1. Sympathetic Care- My first pregnancy experience
- 2. Empathetic Care- Ms. Player mom's nurse
- 3. Compassionate Care- Dr. Ming Lim one of my hematologist
- 4. The information shared in this slide can be considered and used in all types of customer/client services regardless of specialty service provided: social work, health support and clerical/administrative assistance.

Original Article

Sympathy, empathy, and compassion: A grounded theory study of palliative care patients' understandings, experiences, and preferences

Shane Sinclair ^{1,2}, Kate Beamer ¹, Thomas F Hack ^{3,4}, Susan McClement ^{3,4}, Shelley Raffin Bouchal ¹, Harvey M Chochinov ^{3,5}, and Neil A. Hagen ^{2,6}

Tips for Authentic, Respectful Communication

- 1. Be kind and respectful to each other
- 2. Make certain that all individuals present have been introduced and their roles (involvement) in care are known
- 3. Be present and committed to sit **Make eye to eye contact**
- 4. Listen deeply
- 5. Ask thoughtful questions
- 6. Wait for responses
- 7. Repeat information that is gathered to make certain that the information shared is correct
- 8. Consider other resources that may be needed due to social determinants of health expressed

Role Play Scenarios:

- 1. Scenario A
- 2. Scenario B
