COACH Training - August 2023

COACH is a framework of techniques and tools designed to engage and empower individuals with complex health and social needs. Care team members learn behaviors required to build authentic healing relationships, build self-efficacy, and create sustained behavioral change. The COACH training trains frontline care team members on how to break down relationship-building and empowerment into actionable behaviors. This course is a unique learning experience that will reshape the way you interact with and deliver care to individuals you work with. Participants can expect to learn concrete behaviors that will elevate patient engagement, patient outcomes, and lead to sustainable change.

Goals and Objectives

- Demonstrate COACH theories and techniques.
- Apply underlying COACH care tenets such as motivational interviewing, harm reduction, and trauma informed care.
- Demonstrate building authentic healing relationships with individuals served and team members.
- Integrate COACH foundational behaviors into routines, operations, and mindsets.
